

SIP Service

The World's Largest VoIP Provider

\$19.95*

per month/per line

Unlimited Local and Long-Distance Including 25 Countries

The average cost for each phone line from Verizon FiOS, Comcast and Cablevision is \$35.00* a month. All three use a special adapter/modem that converts a portion of your data connection to phone service. Why spend \$35.00 when you can get the same great voice quality and service for only \$19.95*

We offer an adapter/gateway with better technology, supported by largest Internet voice company in the world. Their monthly rate for each phone line is only \$19.95 Which includes unlimited local and long-distance, including 25 overseas countries.

* Taxes, FCC and 911 fees not included

HOW IT WORKS

Gateway/Adapter required if phone system doesn't support direct SIP service
(Works with any phone system)

- Download individual or multiple recordings to save or playback

Have concerns about call quality, service or reliability?

Get the real scoop. We look forward to referring our many satisfied customers to you.

"We're 100% satisfied with the service. Saving hundreds of dollars a month is a plus as well"
Dee - Freehold Pest-Control

"We switched from Verizon because our copper lines had continuous problems. So far, so good. Thank you"
Donna - Foggia Florist

"Customer service is always very responsive when we need to add or change a service"
Rich - Greenleaf Pet Resort
