

Cloud based Automated Answering Service for \$39⁹⁵ per month

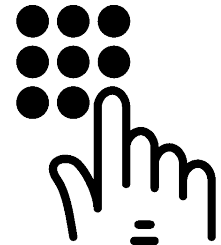

HOW IT WORKS

Forward your calls to the cloud service phone number

Calls are answered with your company greeting

Customer chooses options via dial pad

Key Pad Options:

- ✓ Play an announcement only - Announced office hours, directions, promotions, and etc.
- ✓ Record a message - Recorded message will automatically forward to one or several email addresses, which includes caller ID information and attached recorded wav file.
Recorded message can be played back from any PC, tablet or smart phone.
- ✓ Transfer Calls to Cell Phones - System will make 3 attempts to call all phones. On-call staff will receive a text and email with attached voice mail message if call is not answered.
Caller can be transferred to 1 or (up to 12) phone numbers simultaneously
- ✓ Branched out to other options - Allows greater flexibility with multiple menu choices. Perfect option for transferring callers to other offices.

All conversations to cell phones are **recorded** and can be viewed or played at anytime, local or remotely via web GUI.

You're in
Control ✓

We offer you a web portal that provides the following;

- Caller ID report statistics
- Add or change email addresses
- And or change on-call phone numbers
- Review, playback and save recordings remotely
- Re-record after-hours and email greetings remotely
