✓ Fiber optics ✓ Category 5 & Higher

Licensed New Jersey Contractor for Low-Voltage

Design

Install

Test

Certify

Certified on fiber-optic and category 5/6 cabling termination

We have built a reputation for providing neat, organized and reliable cabling infrastructures since 1986. In addition to design and installation, we provide testing and certification of category (5e/6) network cabling and fiber optic cable...

Category 5/6 Cable Tester

Performs accurate testing and certification of Category 5/6 network cabling.

Fiber Optic (Multimode) Tester

Performs accurate testing and certification of multimode (850nm & 1300nm) networks.

Fiber Optic (Multimode) OTDR

Performs basic troubleshooting or restoration tasks on multimode optical fiber networks. Determines the length of each strand while finding faults.
