

Communication Disaster Recovery for Just \$34⁹⁵ per month

Your customers will always be able to reach you

Here's How;

Forward your number to our 24/7 service number. Callers will then be greeted with your company greeting

Thank you for calling. Due to a service outage, your call is being answered by our backup cloud service.

To reach a live customer support member, **press 1**

To leave a general message, **press 2**

1 Caller will be transferred to 1 or up to 12 phone numbers simultaneously; System will make 3 attempts to call all phones. On-call staff will receive a text and email with attached voice mail message if call is not answered.

✓ **All conversations are recorded and archived on the cloud that can be re-played at any time**

2 Please leave your name, number and message and your call will be returned promptly; (The recorded message will automatically forward to one or several email addresses. The email will display the caller ID information including the attached recorded wav file).

SAMPLE: New message from "SMITH JOHN " <017325551212> MSG.wav

✓ Recorded message can be played back from any PC, tablet or smart phone.

You're in Control >

Money back guarantee if not satisfied within 30 days
