Network settings for NEC SL2100 phone system

Customer's IT vendor needs to supply us with two local static IP addresses assigned to the phone system.
IT vendor also needs to set up for forwarding, see below:

A public static IP address is required!!!

Phone system IP address's example

Port forwarding

SIP carrier	UDP	5090	5090	192.168.1.50
VoIP audio RTP	UDP	10020-10275	10020-10275	192.168.1.51
NEC remote Access	TCP	8000	8000	192.168.1.50
Remote IP Phone	UDP	5080-5081	5081-5081	192.168.1.50
SOFTPhone	UDP	5070	5070	192.168.1.50

IT vendor to supply Gateway address and subnet

IT vendor needs to make sure that ALG is disabled
